9 - JUL. 1938
172
GENL. & REV. SECT

To SECRETARY
GENERAL
8 JULY 1938

The General Secretary to
Government of Mysore,
Bangalore.

Sir,

I have the honour to submit herewith copy of remarks made by the Board of Visitors who assembled at the Victoria Hospital, Bangalore, on the forenoon of 29th June 1938.

Subd. for perusal. The question of installing a Common Laundry for the 3 Hospls. in Bangalore has been ordered to lie over for the present for want of funds as the original Cost of the proposal (was Rs. 30,000/-) in view of the heavy (Heavy L.S.) by 14/7

I have the honour to be,
Sir,
Your most obedient Servant,

R. Ranga Rao

CONVENER.

The Surgeon may report & recommend
request made by the Board of Visitors.

15-7-38

Remarks made by the Board of Visitors who assembled at the Victoria Hospital, Bangalore.

29th June 1938.

Present

Mr.H.R.Guruva Reddy
Dr.J.V.Karve
Mr.R.Ranga Rao

We went round the Hospital with Dr.Puttanna and found things as usual.

We beg to urge upon the Government the need for equipping this premier institution with an Electric Laundry. This, we consider necessary, as much in the interests of the Hospital as of the general public. The chances of infection spreading into or out of the Hospital will be greatly reduced. The cost, we are told, is likely to be about Rs.17,500 to Rs.20,000. We gather that this will be soon made up by savings in recurring expenditure and increased durability of the stuff washed.

Sd. R. Ranga Rao.
Convener.

To

The Secretary to the Government of Mysore,
Local Self Government Department, Bangalore.

Sir,

7-38-2

With reference to your letter No. G.776 Med 1 dated the 22nd July 1938 regarding the installation of an Electric Laundry for the Combined Hospitals in Bangalore, I have the honour to state that this is not the first time that this question has been raised, but the Board of Visitors have off and on been urging the necessity of this equipment for the past ten years. Definite proposals for the Laundry were already submitted to Government on two previous occasions, once in 1930 and again in 1935, when Government were pleased to order that this question might lie over (vide Chief Secretary's letter No.G. 14795/Med.246-29-3 dated 27-6-1930 and General Secretary's letter No.1011/Med.207-34-6 dated the 6th August 1935) for want of funds.

While there can be no two opinions about the necessity for an Electric Laundry for the up-to-date Hospitals in Bangalore, it is the prohibitive initial cost of the installation that has come in the way of this proposal materialising. As explained in this office letter No.C.188-3 dated the 5th August 1936, the cost of the machinery of the Laundry comes up to £.1400 or Rs.22,500/- exclusive of the cost of the necessary buildings. The recurring charges towards the maintenance of the Laundry, inclusive of the Establishment and other charges would amount to Rs.300/- per mensem, which is not very high, considering that we are at present spending a sum of about Rs.460/- per mensem for the washing of clothes in the three Major Hospitals in Bangalore.

The installation of the Laundry would therefore result in a savings of about Rs.2000/- per annum towards the recurring expenses under Dhoby charges, so that the initial cost of the equipment of the

SENIOR SURGEON

Letter from the Secretary, Victoria, Minto and Vani Vilas Hospitals, Bangalore, No.2232 dated the 17th December 1938 to the Senior Surgeon in Mysore, Bangalore.

---:0:---

With reference to your No.G.C.29/38-39 dated 12-12-1938, I have the honour to state that I am corresponding with some of the firms, as noted in the margin and they have furnished their approximate quotations for a Laundry Equipment and some of them have been asking for further details in the matter, and it will take some more time to get the final quotations from the said firms. The present quotations for a Laundry Equipment are also noted against the respective names of the firms.

1. Messrs. La "Claires"Electric Laundry Corporation, Central Bank Buildings, Esplanade Road, Fort Bombay for £2573
2. Messrs.William Jacks & Co.,37, Second line Beadh, Madras for Rs.27,821/-
3. Messrs Baker Perkins Ltd., Engineers England on behalf of Messrs.Associated Electric Industries, Ltd., Narasimharaja Road, Bangalore for £7,500/-

As regards the estimate of cost for the construction of a suitable building for housing Laundry Out-fit, I have addressed the Executive Engineer, Buildings Division, Bangalore from whom I have not received any reply so far inspite of two reminders. I shall address the above officer again requesting to expedite furnishing the information called for.

The Secretary,
Victoria, Minto and Vanivilas Hospitals,
Bangalore.

Dear Sir,

Your communication No. 4478 dated 25/26-6-39.

Adverting the above, we are hereunder noting not only the information asked for but also, at the same time we wish to state that there are the other points that are essential for the running of a Laundry efficiently, which you will kindly not ignore under a contract.

We are herewith enclosing the sketch of the premises as at present comprising of about 2 acres. In it you will kindly notice the extra space that is kept as a reserve for the future development of the business in case a large contract like yours is built up. In India the advantage of drying by sun has to be made use of for -- bleaching as well as drying and it is with that object the extent of space forms a very important factor. This aim has been one of the guiding features while forming the - Laundry at this place.

By a remote glimpse we feel that we take the risk of the loss of custom from the Public, who from ignorance will infer that we would be the media of spreading the diseases instead minimising the spread of contagion. In

Bangalore. (Continued)

order to overcome this we have to bifurcate the entrance and exist of the Hospital linen, institute a separate set of plant and machinery with all the sanitary arrangements for the exit of the contaminated water which also is a big problem considering the sanitation of the vicinity. As this is an Institution promoted with the public investment, which has experimented all the possibilities for running the Laundry it deserves the encouragement not only by way of a contract of custom for a number of years but also the loan of a small capital for the plant and machinery with an arrangement for repaying the same out of a reserve from the value of the Bills the extent of 25% and the rate of the contract also being fixed. It is needless to mention that the charges for running a Laundry will be same for any one taking the risk and it will be more so if such a venture is taken by the Government management on account of the overhead expenses and other factors. When there is a safe Institution that is prepared to take the responsibility and risks of running the concern it will be easy to give it the custom and the small initial capital with a guarantee on either side.

To give you a specific idea in terms of money, we would be requiring about Rs.50,000/- with a guarantee of 5 years contract subject to its being renewed for a similar period. As for our stability we are herewith sending the copy of the previous Balance Sheet, the assets of which will be a surety besides the fresh plant that has to be installed on account of this Hospital Contract. By way of special mention, the procedure of presenting our Bills through the Bankers for the smooth running of the Institution has to be permitted. In order to pay back the loan granted to us on this score 25% of the Bills may be withheld.

The Secretary, Victoria, Minto and Vanivilas Hospitals,
Bangalore. (Continued)

Our nett working cost on a large contract like yours with the foregoing concessions will be Rs.2-8-0 per 100 pieces the clothes being delivered and collected Ex-our premises.

We have just outlined our views on the matter and in case you appreciate them we request you to kindly recommend our aforesaid proposition to the Government. We have worked out all the details of our requirements and should the Government be pleased to entertain the proposal, we shall as in duty bound give them every particular to make the proposition palatable and contribute our little services for the needy and forlorn victims of diseases, whose guardians the Hospitals are.

Having regard to 1000 pieces as the basis the quantity of water for cleansing the same will be about 5000 gallons, whose cost at Government rate is Rs.5/- per day. To clear up the water thus used by means of hand pump will be Rs.2/-. In all it would come to Rs.7/- per day.

The power consumed may average to 70 units, which as per the rates will be Rs.3-8-0 per day.

Besides the above two factors there are other things that have to be seriously considered. Some of them being the washing materials, the cost of steam, the skilled labour to handle each process, the depreciation of the machinery and the replacements of the parts of plant and machinery and last but not least the building cost of housing them with suitable entrances and exits.

In conclusion, the scope of the expansion of the Laundry
